Dear friends,

On Jan. 12, the first day of the scheduled 105-day legislative session in Olympia, I raised my right hand and took the oath of office as your new 26th District state representative.

It is my greatest honor to represent your interests at the state Capitol. It's been a great learning experience, and as a former Kitsap County commissioner, I'm very familiar with many of the local issues under discussion in the Legislature.

I'm pleased to have been appointed to three House committees: Local Government and Housing (where I serve as the ranking Republican), Higher Education, and Early Learning and Children's Services. Within these committees, I'm working to reduce unfunded and unnecessary mandates, provide affordable tuition for our students, and ensure better foster care for our children by retaining coverage for 18- to 21-year-olds.

I invite you to visit my Web site at www.houserepublicans.wa.gov/Angel to read more about my legislation and the issues I'm addressing on your behalf.

Keeping in touch with those I'm elected to represent is an important part of my job. That's why I am sending you this mailer and asking for your responses on those issues important to you. I want to hear from you anytime you have questions, comments and suggestions about state government.

Also, I've provided some important phone numbers and Web addresses on the inside of this mailer to help you stay in touch with your elected government officials.

Thank you again for allowing me to serve you.

Sincerely,

Rep. Jan Angel

Government Directory and Survey

1. Washington is facing a record state budget deficit that could exceed \$8 billion. How should lawmakers close the budget gap?

- Set priorities, eliminate outdated and unnecessary programs, and reduce state government spending
- Increase taxes to maintain current level of spending
- Adopt a combination of tax increases and cuts to state government programs
- Other (Please specify)

2. As a way to increase state revenues, some lawmakers have introduced Senate Joint Resolution 8205, which would seek to change the state's constitution to allow an income tax to be implemented in Washington. I personally do not agree with an income tax, but I would like to know how you feel.

- Washington should implement an income tax in addition to existing taxes
- Washington should replace existing taxes with an income tax
- No income tax is needed
- Other (Please specify)

3. Washington was the first state in the nation to require convicted sex offenders to register with law enforcement once they are released from custody. While our law has gone a long way toward increasing public safety, concerns exist about continued monitoring of sex offenders once they are released. Do you support electronic GPS monitoring (ankle bracelet) of all Level 3 sex offenders and sex offenders who are registered as homeless, transient, or have a prior conviction of failing to register?

- Yes, I support GPS monitoring of the type of sex offenders listed above
- No, I do not support GPS monitoring of sex offenders
- Other (Comments)
